

# Visual Presenter LX-1

High Quality Images, Entry model

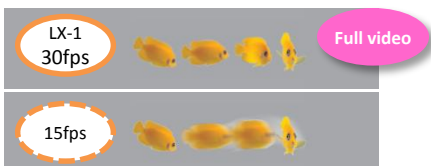

## HIGH IMAGE QUALITY & ADVANCED 96X ZOOM

The LX-1 3.4M pixel CMOS 1/2.8" Image Sensor, produces full HD 1080p resolution with outstanding color reproduction and sharp image resolution. Moreover, the incredible 96x zoom (12x optical and 8x Digital) means the LX-1 can display the smallest objects clearly for a spectacular audience experience.

## Reproduces Smooth Motion

The LX-1 captures and reproduces moving images at 30fps(frame per second) for the display of truly smooth, natural motion.

## Easy Control at Your Fingertips

A simple turn of the zoom dial is all that is needed zoom in, zoom out and make fine zoom adjustments. For added ease of use, the AF(Auto Focus) button enables easy one-touch auto focusing.

## Easily Connect to an Interactive Whiteboard

By simply connecting to a computer via USB, the LX-1 functions as a USB camera. As no official software is required, the connection with external devices, such as an interactive whiteboard, has improved the board utility.

# LX-1 SPECIFICATIONS
